[Blog.MSDSonline.com](http://Blog.MSDSonline.com)

MSDSonline has consolidated the features of both the binderVIEW® and MSDSadvantage® products into our powerful HQ Account platform, giving you a single, easy-to-use system to meet your HazCom compliance requirements. Better still, as a long-standing binderVIEW customer, you qualify for a **FREE** upgrade.

### Benefits of upgrading

Similar to the binderVIEW product, the HQ Account offers single- or multiple-site specific MSDS management and Right-to-Know deployment tools to ensure everyone in your organization has immediate access to your MSDS documents and other critical safety information, but now with more administrative features and an easier to use interface. Other advantages include:

- ✓ **No cost to upgrade**
- ✓ All of your existing data is transferred for you
- ✓ More powerful search engine makes finding MSDSs easy
- ✓ Entirely Web-based platform
  - No software to install\* and maintain
  - Immediate access to new features and future upgrades
  - Site administrators on other networks can manage a shared MSDS eBinder
  - Requires no manual account synching or changes to data
  - Single link provides account access for all users regardless of user-type; no longer necessary to log in through user-specific entry points
- ✓ Increased administration, customization and resource features, such as:
  - Portable eBinder backup capability comes standard
  - Administrators control permissions, security levels and landing-page appearances for different user-types
  - Administrator can assign inventory for three levels, no longer limited to two
  - Administrator can export URLs for MSDSs, easily sharing MSDSs with other employees and emergency response teams
  - New Safety Center expands on binderVIEW Reference Center concept to include: safety calendar, employee forum, resource links and much more

### Starting your upgrade is easy...

Simply call us at 1.888.362.2007 or send an email to [upgrades@MSDSonline.com](mailto:upgrades@MSDSonline.com). *Note: Please allow three to four weeks for completion of the upgrade; your binderVIEW will remain active during this time.*

In order to complete the process, an Upgrade Manager will contact you to collect some information and will transfer the necessary binderVIEW Account information to your new HQ Account. When the migration is complete, you will receive an email containing details about the new HQ Account. Your Upgrade Manager will also contact you to review the new system.

Additional training with our Implementation Team is available during normal business hours, Monday – Friday, 8am – 5pm CT.

\* A software download is necessary when creating a backup of your eBinder

## SYSTEM REQUIREMENTS

- Internet access & any standard Web browser (JavaScript and cookies enabled)
- Adobe® Reader® (v.7 or higher recommended)
- Microsoft® Windows® 98, 2000 (SP 4) or XP (SP 1a)
- VGA resolution of 1024x768 or higher recommended

## OPTIONAL FEATURES

- **Fax-Back Service** – Get immediate fax access to your MSDSs. Ideal for remote locations or areas with limited Internet or computer access. Our team of dedicated specialists including nurses, emergency medical technicians, toxicologists, paramedics and pharmacists are on call to provide chemical exposure support.
