

On-Demand Training

Create your own dedicated online training solution.

Accidents and injuries are more expensive than you may realize. Costs mount up quickly, but substantial savings in workers' compensation and lost workdays are possible when injuries and illness decline.

Reduce Costs and Employee Accidents

Compliance with OSHA, EPA and other federal and state regulatory requirements, coupled with an effective training program can help reduce your costs, injuries and illnesses. MSDSonline® offers two flexible options for you to deploy a compliance-based training solution.

BENEFITS

- ✓ **On-Demand Access** – Around-the-clock access to a comprehensive library of EH&S-related, original-content training courses
- ✓ **Flexible** – Flexible licensing and delivery options via the Web
- ✓ **Affordable** – Rapid implementation with no up-front IT costs or software to install
- ✓ **Improved Compliance** – Improved regulatory compliance, risk reduction and lower accident rates through easy to track and manage compliance training and certification programs
- ✓ **Cost Savings** – Cost savings from lower insurance premiums, workers' comp claims and lost job time
- ✓ **Employee Retention** – Improve retention of key employees by giving them the tools to keep them safe and productive

Standard Package – Ideal for companies who need a cost-effective way to quickly deploy targeted training programs to a small set of employees. Our Standard On-Demand Training Package enables you to deliver interactive training courses to one or all of your employees. Choose from our extensive catalog of more than 70 EH&S related topics (see *back for course titles*).

Premium Package – The perfect solution for companies that have broader training needs across their organization and want complete control over the tracking and reporting of their training programs. Our Premium Package delivers a more comprehensive Learning Management System empowering you to manage all of your online, virtual and classroom training activities. You control every aspect of your training program through one easy-to-use, centralized application. Plus, you receive online tools that enable you to customize your training programs, develop and import your own content, add job- or organization-specific policies and more.

Both On-Demand Training packages give you the flexibility to select only the courses you want to make available to your employees.

It's Training When and Where you Want It!

At MSDSonline, we take workplace safety seriously. Our On-Demand Training packages enable you to quickly meet your workplace training needs through an integrated solution all from one convenient source.
