

Workplace Training

Create your Own Dedicated Online Training Solution

"We found nothing beats the MSDSonline training solution in terms of overall value and flexibility."

Overview

Accidents and injuries are more expensive than you may realize. Costs mount up quickly, but substantial savings in workers' compensation claims and lost workdays are possible when injuries and illnesses decline.

Reduce Costs and Employee Accidents

Compliance with DOL, OSHA, EPA and other federal and state regulatory requirements, coupled with a successful training program can help reduce your costs, injuries and illnesses. MSDSonline[®] offers dozens of workplace and EH&S related topics (see back for course titles). And, we offer three flexible solutions for you to deploy effective compliance-based training to your employees based on your budget and/or needs.

Standard Package

Ideal for companies who need a cost-effective way to quickly deploy targeted Web-based training programs to a small group of learners/employees. Our Standard Package enables you or your learners to schedule, manage, track and report on enrollments as well as print certificates of completion. You can select courses on a per-learner basis or through a library of courses for small groups of learners.

Premium Package

The perfect solution for companies that have broader training needs across their organization and want complete control over the tracking and reporting of their training programs. Our Premium Package delivers a more comprehensive Learning Management System empowering you to manage all of your online, virtual and classroom training activities.

You control every aspect of your training program through one easy-to-use, centralized application. Plus, you receive online tools that enable you to customize your training programs, develop and import your own content, add job- or organization-specific policies, and more.

It's Training When and Where you Want It!

At MSDSonline, we take workplace safety seriously. Our On-Demand Training packages enable you to quickly meet your workplace training needs through an integrated solution all from one convenient source.

Creating and managing a top-quality training program to achieve your business objectives couldn't be easier. It's on-demand training in a scalable, fully-hosted environment.

For pricing information, visit www.MSDSonline.com or call us toll-free at 1.888.362.2007 (U.S. & Canada Only). Outside the United States, call 1.312.881.2000.

Benefits

▣ On-Demand Access

Around-the-clock access to a comprehensive library of EH&S related, original-content training courses.

▣ Flexible

Flexible licensing and delivery options via the Web.

▣ Affordable

Rapid implementation with no up-front IT costs or software to install.

▣ Improved Compliance

Improved regulatory compliance, risk reduction and lower accident rates through easy to track and manage compliance training and certification programs.

▣ Cost Savings

Cost savings from lower insurance premiums, workers' comp claims and lost job time.

▣ Employee Retention

Improve retention of key employees by giving them the tools to stay safe and productive.
