

"Before handling any new chemicals, I always make sure my staff reviews a safety data sheet first."

R&D

**Quick, Easy Access
to Millions of Safety
Data Sheets**

Benefits

▣ Around-the-Clock MSDS Access

Available 24/7/365 via the Web, the R&D Account gives you the freedom to work whenever and wherever you need.

▣ Millions of MSDSs at Your Fingertips

Our industry-leading database of indexed and searchable MSDSs enables you to fill in any gaps in your inventory to ensure HCS compliance.

▣ Easy-to-Use

The R&D Account is simple and intuitive to use; all the tools are in a familiar Web environment so you can get started immediately without training.

▣ Quick Return on Investment

At just \$149/year, the R&D Account pays for itself in the time it would take you to call a handful of manufacturers.

▣ Low Cost of Ownership

There's no software to download, install or maintain locally.

Overview

It's estimated that more than 5 million facilities in North America alone handle chemical materials. In the United States, OSHA reports that each year over 40 million American workers are exposed to hazardous chemicals in the workplace. MSDSonline[®] has responded by developing innovative, on-demand EH&S compliance management products and services to help businesses of all sizes reduce the potential risks and liability associated with workplace exposures, injuries and illnesses.

Our entry-level MSDS management solution, the R&D Account, is ideal for small companies, or departments within larger businesses, that need quick access to a relatively small number of safety data sheets. Whether it's for research, project work or for simply filling in missing MSDSs in your library, the R&D Account provides annual access to our industry leading database, which contains millions of indexed and searchable MSDSs.

Millions of MSDSs at Your Fingertips

Whether it's for research, project work or for simply filling in missing MSDSs in your library, the R&D Account provides annual access to our industry leading database, which contains millions of indexed and searchable MSDSs.

As an R&D subscriber, you get unlimited searching of the most comprehensive online MSDS database. And because it's Web-based, your R&D Account is always available, day or night, from any computer connected to the Internet — giving you the freedom to access MSDSs whenever and wherever you need.

Continuously Updated

What's more, only MSDSonline continuously adds new safety data sheets. Each week, we add up to 10,000 new or updated MSDSs to our database, so you always have access to the most current and relevant documents.

In addition to our powerful search engine, you also get an online eBinder to store your select safety data sheets. Think of it as your personal online filing cabinet where you can access the MSDSs you need frequently. With your MSDSonline eBinder, you never have to keep searching for the same MSDSs.

At just \$149/year, the R&D Account is an affordable way to ensure you always have access to the safety data sheets you need to keep your employees safe. There's no software to download or install. You just sign up online, sign in and you're ready to go.
