

# Workplace Training Industry Packages

Our Healthcare, Manufacturing, Construction, Education, and General course packages make it simple to satisfy federal and state regulatory compliance requirements.

## eLearning Programs Made Easy

One of the best ways to reduce workplace accidents is to ensure employees know how to handle hazards they encounter. An effective employee training program plays an important role in creating a safe, compliant work environment. For many companies, traditional training models are expensive and time-consuming, and do not always produce desired outcomes.

On-demand training is a great alternative, allowing employers to train employees using a flexible, easy-to-use online interface. It improves efficiencies for both trainers and trainees and reduces the negative impact that classroom-style training can have on productivity. It can be implemented as a stand-alone solution or integrated as part of a larger blended training strategy.

With MSDSonline's Industry Packages, it's never been easier to implement an on-demand training program that's right for your business. Simply choose one of the packages below — each made up of 10 courses carefully selected to meet the needs of four specific industries, plus a General Package that covers cross-industry training essentials. And if you need more than the 10 pre-selected courses in your training program, we can tailor your package to include additional selections from our extensive course list.

**Discover for yourself why companies large and small are choosing MSDSonline, a VelocityEHS solution, for on-demand training.**

Sexual Harassment	Preventing Strains & Sprains	Respiratory Protection	Personal Protective Equipment (PPE)	Workplace Safety Orientation
Slips, Trips, & Falls	Universal Egress	Workplace Violence	Trenching & Excavation Safety	Workplace Violence

## Features

### Virtual Classrooms

- Nearly 100 expert-reviewed, interactive training courses related to your work environment
- Unique User Profile for each member of your organization, allowing for personal “My Training” and “Transcript” pages
- Multiple-choice challenges to gauge employee comprehension
- Printable course completion certificates
- Access to online help system

### Administrative Control

- Online management and tracking of student records
- Organization-wide exportable reporting
- Grouping of students and batch enrollments
- Classroom management for hands-on learning
- Administrator-set certification periods and passing scores

### Customized Training

- Direct import of PowerPoint and SCORM content
- Easy-to-use, browser-based course development tools
- Custom resources associated to specific courses, groups, or the entire training center

## Consider these additional MSDSonline courses for your on-demand training program

- Arc Flash Awareness
- Behavior-Based Safety Training
- Carcinogen Safety
- DOT Security Awareness
- DOT Shipper Training
- DOT Transporters
- Emergency Plan and Evacuation Procedures
- Emergency Response: Incidental Chemical Releases
- Environmental Regulations Overview
- Eye and Face Protection
- Forklift Safety
- Forming Effective Safety Committees
- Hand and Finger Safety
- Hazwoper 8-Hour Refresher
- HIPAA Privacy for Healthcare Plans and Employers
- Hoisting and Rigging
- Indoor Air Quality
- Indoor Crane and Sling Safety
- Laboratory Safety - Chemical Hygiene
- Laboratory Safety - Corrosives
- Laboratory Safety - Ergonomics
- Laboratory Safety - Flammables
- Laboratory Safety - Fume Hoods
- Laboratory Safety Personal Protective Equipment
- Laboratory Safety - Physical Hazards
- Laboratory Safety - Pollution Prevention
- Laboratory Safety - Pressure Hazards
- Laboratory Radiation Safety
- Lead Safety Awareness
- Machine Guarding
- Material Handling & Storage Procedures
- MSDS Training
- Office Safety
- Operating Effective Safety Committees
- OSHA Investigations & Inspections
- Pollution Prevention
- Preventing Discrimination in the Workplace
- Preventing Harassment and Discrimination for CA Supervisors
- Process Safety Management Program
- Spill Prevention and Control
- Stress Management
- Toxicology
- Waste Management
- Welding, Cutting and Brazing
- WHMIS Training
- Winter Driving Safety
- Working in Extreme Temperatures
- Working Safely: Job Safety Analysis (General)
- Working Safely: Job Safety Analysis Supervisor
- Workplace Diversity

## Benefits

### On-Demand Access

Around-the-clock access to a comprehensive library of EH&S-related, original content training courses.

### Flexible

Flexible licensing and delivery options via the Web.

### Affordable

Rapid implementation with no up-front IT costs or software to install.

### Improved Compliance

Improved regulatory compliance, risk reduction and lower accident rates through easy to track and manage compliance training and certification programs.

### Cost Savings

Cost savings from lower insurance premiums, workers' comp claims and lost job time.

### Employee Retention

Improve retention of key employees by giving them the tools to stay safe and productive.

## System Requirements

- Internet access
- Internet Explorer 7.0+
  - JavaScript and cookies enabled
- Microsoft® Windows® Vista, 7,8, or 8.1
- VGA resolution of 1024x768 or higher recommended
- Standard audio card, speakers and/ or headphones
- Training Developer PowerPoint Plugin Requirements: Microsoft® PowerPoint® 2007, 2010, or 2013 (32-bit)
